

Vegetable	Companions	Antagonists	Insight
<u>Asparagus</u>	Carrot, Tomato, Basil, Coriander, Dill, Parsley, Marigold	Garlic, Potato, Onion	Marigolds, Parsley, Tomato protect from asparagus beetles
<u>Beans</u>	Broccoli, Brussels Sprouts, Cabbage, Carrots, Cauliflower, Cucumber, Celery, Chard, Corn, Eggplant, Kale, Peas, Potatoes, Radishes, Strawberries	Beets (Pole Beans only), Chives, Fennel, Garlic, Leek, Onion, Shallots, Sunflowers	Corn is a natural trellis, and provides shelter for beans. Beans provide nitrogen to soil.
<u>Beets</u>	Allium family (Chives, Garlic, Leeks, Onions), Brassicas family (Broccoli, Brussel Sprouts, Cabbage, Cauliflower, Kohlrabi), Lettuce, Radishes, Spinach	Beans (Pole and Runner Beans), Tomatoes	The beans and beets compete for growth. Composted beet leaves add magnesium to soil when mixed.
<u>Broccoli</u>	Beet, Bush Beans, Carrot, Celery, Cucumber, Garlic, Lettuce, Onion, Radish, Spinach, Swiss Chard, Basil, Chamomile, Dill, Mint, Rosemary, Sage, Thyme, Marigold, Nasturtium	Asparagus, Climbing Beans, Mustard, Peppers, Pumpkin, Sweet Corn, Cantaloupe, Strawberry, Watermelon	Rosemary repels cabbage fly. Dill attracts wasps for pest control.
<u>Brussels Sprouts</u>	Beets, Carrots, Garlic, Onion, Basil, Dill, Thyme, Mint, Nasturtium, Marigold	Strawberry, Tomato	—
<u>Cabbage</u>	Beets, Bush Beans, Celery, Onion, Potato, Chamomile, Dill, Mint, Oregano, Rosemary, Sage, Spearmint, Nasturtium, Marigold	Beans (Pole and Runner), Eggplant, Mustard, Pepper, Tomato, Strawberry	Celery, onion and herbs keep pests away. Rosemary repels cabbage fly.
<u>Carrots</u>	Beans (Bush and Pole), Chives, Garlic, Leek, Lettuce, Onion, Tomato, Parsley, Rosemary	Parsnip, Coriander, Dill	Beans provide nitrogen in soil which carrots need. Onion, parsley and rosemary repel the carrot fly
<u>Cauliflower</u>	Beans, Celery, Peas, Spinach, Tomato, Chamomile, Oregano, Rosemary, Sage, Sunflower	Rue, Strawberries	Beans provide the soil with nitrogen, which cauliflower needs.
<u>Celery</u>	Bush Beans, Cabbage (brassicas), Cucumber, Leek, Spinach, Tomato, Dill, Majoram, Cosmos, Daisies, Marigolds, Nasturtiums, Snapdragons	Carrots, Corn, Potato, Aster	Corn and asters transmit Aster Yellows; a disease with symptoms of yellowing leaves while veins remain green.
<u>Chives</u>	Basil, Carrots, Marigold, Parsley, Parsnip, Strawberries, Tomato	Beans	—
<u>Corn</u>	Beans (climbing), Cucumber, Peas, Pumpkin, Squash, Zucchini, Marjoram, Sunflower	Tomato	Tomato worm and corn earworm like both plants. Beans and peas supply nitrogen.
<u>Cucumber</u>	Beans, Celery, Corn,	Potato, Tomato, Sage,	Cucumbers grow poorly

	Lettuce, Peas, Radish, Dill, Marigold, Nasturtium	Strong Aromatic Herbs (except dill)	around potatoes and sage.
Dill	Cabbage, Corn, Cucumbers, Dill, Fennel, Lettuce, Onions	Cilantro, Tomato	Cross-pollinates with cilantro, ruining both. One only a few plants that grows well with Fennel.
Eggplant	Beans, Marjoram, Pepper, Potato	—	—
Kohlrabi	Beets, Cucumber, Lettuce, Onions, Thyme, Nasturtium	Pepper, Pole Beans, Tomato, Strawberries	Lettuce repels earth flies.
Leek	Carrots, Celery, Lettuce, Onions	Beans, Peas	Companion attributes are the same as garlic, onion, chives (alliums).
Lettuce	Beans, Beets, Broccoli, Carrots, Corn, Onions, Peas, Radish, Mint, Strawberries, Marigold	Parsley	Mints repel slugs (which feed on lettuce).
Marigold	Brassiccas (broccoli, etc), Cucurbits (cucumber, etc), Peppers, Tomato, and most other plants	—	It is said that you can plant Marigolds throughout the garden, as they repel insects and root-attacking nematodes (worm-like organisms). Be aware they may bother allergy sufferers.
Onion	Beets, Cabbage, Carrots, Lettuce, Parsnips, Tomato, Chamomile, Marjoram, Rosemary, Savory, Strawberry	Asparagus, Beans, Peas	Repels aphids, the carrot fly, and other pests.
Parsley	Asparagus, Beans, Radish, Rosemary, Tomato	Lettuce	Draws insects away from tomatoes.
Peas	Beans, Brussels Sprouts, Cabbage, Carrots, Cauliflower, Celery, Corn, Cucumbers, Lettuce, Potatoes, Radishes, Squash, Sage	Alliums (Chives, Garlic, Onion, Shallots)	—
Potato	Beans, Celery, Corn, Garlic, Horseradish, Lettuce, Onions, Peas, Spinach, Radishes, Basil, Marigolds	Asparagus, Brassicas (Broccoli, Brussels Sprouts, Cabbage, Cauliflower, Kohlrabi), Carrots, Cucumbers, Eggplant, Melons, Peppers, Squash, Tomatoes, Raspberries, Strawberries, Sunflower	Cucumber, tomato and raspberry attract harmful pests to potatoes. Horseradish increases disease resistance.
Pumpkin	Beans, Corn, Squash, Marigold, Nasturtium	Potato	—
Radish	Allium family (Chives, Garlic, Leek, Onion), Beets, Cabbage, Carrots, Cucumber, Kale, Lettuce, Spinach, Squash	Hyssop (the Herb)	Radish is often used as a trap crop against some beetles(flea and cucumber).
Sage	Beans, Cabbage, Carrots, Peas, Rosemary, Strawberries	—	Repels cabbage fly, some bean parasites.

<u>Spinach</u>	Beans, Brassicas family (Broccoli, Brussels Sprouts, Cabbage, Cauliflower, Kohlrabi), Celery, Eggplant, Leeks, Lettuce, Melons, Peas, Potatoes, Radishes, Tomatoes, Nasturtium, Strawberries	—	Natural shade is provided by beans and peas, for spinach.
<u>Squash</u>	Beans, Corn, Peas, Radish (White Icicle), Borage, Dill, Marigolds, Nasturtium, Strawberries, Sunflower	Potato	Similar companion traits to pumpkin.
<u>Strawberries</u>	Bush Beans, Chives, Lettuce, Onions, Spinach, Squash, Borage, Caraway, Sage	Cabbage Family, and plants susceptible to Verticillium (ie. Eggplant, Potato, Tomato, Peppers)	The herb, Borage, is likely the strongest companion.
<u>Tomatoes</u>	Asparagus, Carrots, Celery, Chives, Garlic, Lettuce, Spinach, Onion, Basil, Borage, Parsley, Marigolds	Brassicas (Broccoli, Brussels Sprouts, Cabbage, Cauliflower, Kohlrabi), Beets, Corn, Fennel, Peas, Potatoes, Dill, Rosemary, Walnut trees	Growing basil about 10 inches from tomatoes increases the yield of the tomato plants.
<u>Turnip</u>	Peas	—	—
<u>Zucchini</u>	Beans, Corn, Garlic, Peas, Radishes, Spinach, Borage, Dill, Oregano, Marigolds, Nasturtium	Potato, seed saving consideration with squash and pumpkin	—
